

PERFECT SURFACE, NW

RESURFACING KITCHEN & BATH COUNTERS

In Occupied Homes/Units

Technician will need access into your unit/home either by the tenant/resident, management, lockbox, or unlocked door.

Tenants/residents should take into account the following responsibilities:

Kitchen Counters:

1. **ALL** items such as toasters, microwaves, canisters, countertop appliances, etc., **MUST** be removed from the kitchen counter.
2. Remove **ANY** décor or items from the walls (i.e. pictures, pans, clocks, etc.) in the kitchen and nearby areas.
3. Furnishings close to the counters or kitchen area should be moved to a **minimum of 5 feet**, or further, away from the kitchen as possible to protect from overspray.

Bathroom Counters:

1. **ALL** items such as toiletries, towels, etc., **MUST** be removed from the bathroom counter.
2. Remove **ANY** décor or items from the walls and floors (i.e. pictures, rugs, towels, etc.) in the bathroom.

Tenants/residents should not remain in the unit/home while resurfacing is occurring. We prefer that animals do not remain on the premises during the day of resurfacing. If arrangements for your pets cannot be made, please lock your pets in a room furthest away from the work area. **DO NOT** place any items on countertops until the recommended drying time has elapsed.

DRYING TIME:

Spring & Summer – Approximately 24 hours

Fall & Winter – Approximately 36 hours

If you have any questions regarding the resurfacing of your countertops, please feel free to contact our office at 503-968-6162.

Thank you for choosing Perfect Surface NW!
